PROFILE

Experienced React.js Developer with a strong background in building dynamic and responsive web applications. Skilled in collaborating with UX and design teams to transform functional specifications into seamless user experiences. Proficient in React.js, Next.js, and Responsive Web Design for creating high-performance websites.

EXPERIENCE

Andev Matrix

Hyderabad, Pakistan

Associate Software Engineer

1st June 2025 - Present

- Developed the official company website using Next.js and Tailwind CSS, showcasing services, offerings, and hiring opportunities. Integrated Sanity CMS for dynamic blog management and optimized performance, SEO, and responsiveness using SSR and static generation.
- Developed a full-stack e-commerce web application with features like product browsing, shopping cart, and responsive UI using modern web technologies.
- Upgraded multiple React Js projects to the latest versions, improving performance and code maintainability.

Zetsol Technologies

Hyderabad, Pakistan

Front-end Developer

20th, Jan 2025 - 20th, April 2025

- Contributed to BC Appa, a fund organization application, by fixing UI issues, developing reusable components, and implementing new features.
- Worked on a Buy & Sell Admin Portal, implementing core admin features such as managing listings, users, and approval workflows.
- Built scalable and reusable UI components using React.js and Next.js to improve maintainability and performance. Enhanced web performance and SEO through Server-Side Rendering (SSR) and Static Site Generation (SSG).

SKILLS

Technical: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Motion,

State Management & Data Handling: Redux Toolkit, RTK Query, Local Storage, RESTful API Integration

Certificates: Director Management (SES), Director Management (GDGoC)

Tools: Git, GitHub, Postman, npm, VSCode

PROJECTS

Admin Panel

- Developed a React.js Admin Panel integrated with RESTful APIs to manage users, categories, and products efficiently.
- Designed an analytics dashboard to monitor monthly revenue and order statuses (active, pending, delivered, rejected).
- Implemented real-time order notifications using Firebase Cloud Messaging (FCM) to instantly alert admins on new orders.

E-Commerce Website

- Developed a responsive e-commerce website enabling users to register, log in, browse products, and place orders seamlessly.
- Implemented cart and user session persistence using local storage for a smooth shopping experience.

Task Management System

- Built a React-based Task Management System allowing users to register, log in, and view assigned tasks.
- Designed an admin dashboard to assign tasks with priority and status tracking for effective task management.
- Implemented local storage for authentication and task persistence using React.js and Tailwind CSS.

Lost & Found Website

- Developed a Lost & Found Items Platform enabling users to post, search, and claim lost or found items.
- Integrated RESTful APIs for secure item management and real-time data handling.
- Built a responsive and intuitive UI using React.js, focusing on usability and efficient item matching.

EDUCATION

Mehran University of Engineering & Technology
Bachelor of Engineering in Software Engineering

Hyderabad, Pakistan
2021 – 2025

- Cgpa: 3.24
